TechShop Visit (4 February)

No due date

No description

Task tags: *No tags*

Completed by Shirshak Aryal on 09.02.2017 00:54.

➔ **Step 2:** Taking Class on Tech Shop

We are planning to take some useful classes such as laser cutting, 3D printing and textiles by the end of next week. However, since these classes are free only to individual with membership, we would require license for all the group members prior to next visit.

Completed by Shirshak Aryal on 09.02.2017 00:51.

➔ **Step 1:** Group Visited Tech Shop on February 5, Friday

All the group members visited Tech Shop at 4 pm. As only Nischal has the the official license, he completed the registration process at the front desk and also got his access badge. Next, all the group members were given a 30 minutes tour of the Tech Shop, during which all the necessary resources were shown and explained. Towards the end of the tour, we found that even to accompany Nischal inside the Tech Shop area, we would still need to pay \$25 per hour for each visit (fees for non-member to accompany existing members). Thus, we came to agreement that all three members would need to request tech shop membership with Dr Klasener, to avoid recurring fees.

Completed by Shirshak Aryal on 10.02.2017 06:24.

➡ **Step 4:** Followup: Task 1 completed

Shirshak emailed Dr Klaesner today to request extra membership of TechShop for the rest of the group members. Issues and restrictions pertaining to single membership per group was put forward in that email.

Completed by Shirshak Aryal on 09.02.2017 01:32.

➡ **Step 3:** Summary

1) Email Dr Klaesner for additional membership 2) Research potential online seller for supply by Sunday 3) Hand Sketches by Sunday 4) CAD design by end of next weekend

Completed by Shirshak Aryal on 09.02.2017 01:27.

➡ **Step 2:** Find Product for Purchasing

While working on these CAD model, all the group members will individually research online and find the suppliers to buy our required raw materials. On that note, we set deadline to find the materials by upcoming Sunday.

Completed by Shirshak Aryal on 09.02.2017 01:18.

➡ **Step 1:** Planning forward

First, we will start making hand sketches starting this weekend. Utsav will be

primarily responsible for hand drawn sketches. Then, Nischal and Shirshak will work on making CAD models, once the hand sketches are ready. CAD designs will have two individual components, 1) Gloves and 2) Outer Exoskeleton. By upcoming Sunday, we plan to finish up the hand sketches at least. Our target is to have CAD models complete by next weekend. On different note, Shirshak will email Dr Klaesner by tomorrow to request for additional membership for rest of the group members, or at least get some provisional pass so that rest of the group members wont have to pay \$25 for each visit.
