Report for project Senior Design Electronic book

Task created on 28.10.2016 16:40.

Scheduling work for rest of project

No due date

No description

Task tags: *No tags*

Completed by Nischal Khanal on 31.10.2016 15:03.

Step 3: Sunday Meeting

Group was unable to meet due to unforeseen circumstances. Ustav was not back from his trip to Kansas City. Thus, the group decided to push meeting time back to lab time on Monday morning. Utsav has still not returned as of Monday morning. Regardless of his status, the rest of the group will still meet Monday evening (10/31) in order to set the project on track. We have grown too lax in how we are approaching this class.

Step 2: Improving Journal

After reading through Dr. Klaesner's recent emails, we need to vastly improve how we are approaching the Journal. I had not realized the depth of information we needed to be recording on this Journal, and will have the group go through and update information we missed in the past. For the future, we will make sure to record events as they occur and include as much detail as possible. The two emails of interest are linked in the results section.

Completed by *Nischal Khanal* on 31.10.2016 15:08.

Step 1: Invited Dr. Klaesner and Darshit Mehta

Both Professor Klaesner and our TA, Darshit have been invited view the journal.

➔ Step 5: Adding a new tab Weekly Report

We also decided to make a separate tab to upload a copy of weekly reports on Scinote on weekly basis. In this way, we will be able to keep track of the weekly reports besides just uploading it on blackboard. This tab will not be connected to the main workflow as this is only for record keeping purpose. It will be the responsibility of team member preparing the weekly report on a given week to also upload it on the Scinote.

Completed by Shirshak Aryal on 01.11.2016 04:12.

➔ Step 4: Main goal: Making chances to Preliminary report

We want to improve on the literature review, design metrics, project scope, need statement and literature review on our project. We are going to find more literature review and information about existing patent. Overall, we are making changes in our preliminary report in respect to the feedback we got.

Completed by Shirshak Aryal on 01.11.2016 04:02.

➔ Step 3: Minutes from meeting

We discussed the shortcomings of our group so far. We made several goals for this week. First goal is getting our website up to date by this Friday. Second goal is to upload all the journals in the Scinote. Third, we want to redo the preliminary report according to the feedback we got from Dr Klaesner. Fourth, we are meeting Wednesday on 9-10 am to get the Scinote back on track in accordance with recent email from Dr Klaesner to the whole class.

Completed by Nischal Khanal on 01.11.2016 04:02.

➔ Step 2: Meeting time - 1046

We had to push the meeting back due to conflict with Nischal's schedule.

Completed by Shirshak Aryal on 01.11.2016 03:50.

➔ Step 1: Scheduled Meeting time: 10 pm via Google hangout

Due to circumstances mentioned in previous workflow, we are going to meet at

10 pm tonight. We are going to discuss and plan out the entire schedule for the rest of the class. We are planning to get started with making initial sketches of our prototype and also research about compatible materials to be used for the prototype. Today's meeting will be important because it will help us to come up with a skeletal framework for rest of our project.

Completed by Utsav Malla on 02.11.2016 14:41.

➡ Step 6: Verification by Utsav

I verify that I was present during this meeting, and everything shirshak has posted is in alignment with our discussion.

Completed by Nischal Khanal on 02.11.2016 14:35.

➡ Step 5: Verification - Nischal

I verify I was at this meeting and agree to everything stated above.

Completed by Shirshak Aryal on 02.11.2016 14:31.

➡ Step 4: Website Update

Nischal just send us link to update our bio's on the website, so Utsav and Shirshak can now update their bio's too.

Completed by Shirshak Aryal on 02.11.2016 14:27.

➡ Step 3: Improve websites and progress report

Our meeting started at 9 am. We will update everything on the website this Friday by 5 pm. During each week we will assign a single person to turn in the journal and weekly report. We are improving on our initial preliminary report. Find weekly report 4 and send it to Shirshak, so that he can upload that on the SciNote. We want to work on weekly basis to create a better progress report. As stated earlier, this week will be primarily to catching up. When we meet next Wednesday, each of us are assigned to come up with at least one idea per person, so that we can brainstorm better idea for the hand splint. However, we will further research other existing solutions. Finally, we decided to meet with Dr Klaesner on Monday (7th November 2016)

Completed by Shirshak Aryal on 02.11.2016 14:21.

➡ Step 2: We scheduled some regular meeting

Meet in person every Wednesday at 7pm in Brauer. Do google hangouts every Sunday at 9 pm. Additionally, meet on every lab hours.

➔ **Step 1:** Group meeting scheduled for 9-10 am, Wednesday

During our google hangout meeting today, we agreed to meet during lab hours this Wednesday.
