Task created on 14.10.2016 15:29.

Meeting scheduled for Website (W6)

No due date

We scheduled our meeting on Sunday, October 14 2016 at 4 pm in Lopata Hall.

Task tags: *No tags*

Completed by Nischal Khanal on 21.10.2016 09:45.

Step 2: 10/18/2016 Group chat meeting concerning Webpage

The group discussed the webpage over group chat on Facebook on 10/18/2016. The meeting over fall break did not occur due to differences in schedules. The details of the meeting and all agreements are listed out on the Webpage task.

Task created on 21.10.2016 09:34.

Project Webpage

No due date

No description

Task tags: *No tags*

Completed by Nischal Khanal on 21.10.2016 09:46.

Step 2: Future updates

Any future updates to the website will be recorded here.

Completed by Nischal Khanal on 21.10.2016 09:46.

Step 1: 10/18/16 meeting - 10 PM

The group decided that the title for the website would be "Hand rehabilitation splint" with the complete web address being "http://handrehabilitationsplint.weebly.com/". Nischal set up the backbone for the webpage by creating the various tabs required to upload the project content. These included a home page, team overview, project scope, schedule, updates and contact information. He described the goal of the project under "Project Scope", uploaded the schedule and the preliminary presentation, filled in contact information and setup the framework for the team overview page. It will be the

responsibility of each member to fill out their own bio. Nischal will be responsible for uploading all the weekly reports onto the "updates" page. Further content will be added as it is developed.
